[What is School Council?](#)

It is a structured group of parents, principal, teachers, trustees and community representatives who work together to effectively support and enhance student learning. It is a way to consult, advise and work together with the Principal and the school board all with the goal in mind of bettering student learning and growing a positive school community. It is strictly an advisory role, it does not make decisions and it does not fundraise. What does it do? It is involved in hearing and advising on school division policies such as fees, the school year calendar, school improvement and planning such as school budget, volunteers, PAT results, promoting the school in the community, programs or extra curricular activities offered, assurance survey results etc to name a few. It is never involved in school governance, employment, management, fundraising or listening to complaints. All are welcome to attend.
