Family Literacy Day - Monday, January 27

What is Family Literacy?

Family literacy focusses on parents, grandparents and other family members to improve the reading and writing skills of the whole family.

By reading to children and engaging in fun literacy activities regularly, adults actively keep their own skills sharp and also help children improve their skills.

Family literacy activities strengthen the relationship between family members which, in turn, encourages lifelong learning.

Without adult support and a strong foundation at home, a child is less likely to be successful and engaged in school.
